Investigation Dossier: Phase 2 Highway Reconstruction and Grade Separation

Tender ID: **TND-2025-1002** | Category: **Civil Infrastructure & Highway** | Location: **Southern Port Authority**

HYBRID COLLUSION RISK SCORE
86.4 / 100
Classification: **HIGH RISK**

AI DETECTION SUMMARY
HIGH COLLUSION ALERT: Tender exhibits systematic coordination markers. Participating suppliers show recurring co-bidding patterns (Jaccard 0.86) with artificially suppressed price competition. Winning bid pegged unnaturally close to government estimate (98.9%).

Simulated Dataset Scenario: Simulated Bid Rotation

1. Procurement Metadata & Financial Overview

Government Estimated Value:	$7,451,612.66	**Winning Bid Amount:**	$7,368,899.76
Contract Awardee:	BuildTech Engineering Corp	**Total Submissions:**	3 Verified Suppliers
Tender Opening Date:	2025-01-14	**Procurement Status:**	Completed

2. Forensic Bid Breakdown & Price Disparity Analysis

Supplier Name	Bid Amount	Ratio to Est.	Timestamp	IP Subnet	Outcome
BuildTech Engineering Corp BID-102	$7,368,899.76	98.89%	2025-01-14 14:04:19	192.168.42.11	**AWARDED (L1)**
Vertex Highway Constructors BID-103	$8,072,331.99	108.33%	2025-01-14 14:03:54	192.168.42.12	Unsuccessful
Apex Infrastructure Ltd BID-101	$8,226,580.38	110.40%	2025-01-14 14:04:59	192.168.42.10	Unsuccessful

3. Algorithmic Collusion Indicators Detected

• **[INDICATOR-01]**	Winning bid pegged unnaturally close to government estimate (98.9%)
• **[INDICATOR-02]**	Abnormally high bidder co-participation Jaccard similarity (0.86)
• **[INDICATOR-03]**	Multiple bids submitted from identical network IP subnets within short interval
• **[INDICATOR-04]**	GraphSAGE structural anomaly: participating nodes belong to dense recurring cartel clique

4. Recommended Forensic Investigation Steps

Step 1: Subpoena Digital Logs	Request ISP and institutional server access logs to verify if bids were uploaded from shared hardware or identical MAC addresses.

Step 2: Corporate Registry Search	Examine the beneficial ownership and director cross-holdings between the top 3 participating bidders for undisclosed parent-subsidiary relationships.
Step 3: Historical Tender Cross-Audit	Inspect preceding and subsequent procurement awards in the same district to cross-verify winner rotation patterns identified by ProcureGuard GraphSAGE.
Step 4: Formal Hearing / Freeze	Issue formal request for explanation regarding bid pricing parity before contract finalization or fund disbursement.
